

What others Say...

“Thanks again for hosting such a lovely farm visit. I have attached some photos, what a huge success”
- Bobbie Harvey, LEAF Education

“I made a bird feeder for my garden and I liked meeting the big bull Touchstone”
- Harry aged 4

“I loved planting my sunflower seeds and learning beer is made from Barley”
- Zac aged 5

Having a variety of activities ensured excellent engagement for the children. Parents reported how much their children had enjoyed their day. We all had a fantastic time, learnt lots and looking forward to the next visit. A definite recommendation educational and fun visit. We had complete exclusivity to the farm which made for a very relaxed and far better learning opportunities for the staff and pupils
- Mrs Ewins - Pre Prep, Foremarke Hall

Our Farming and Environment scheme includes:

1. Provision of a farm wildlife and wild pollinator package for the benefit of a wide range of farmland birds including skylark, corn bunting, grey partridge, lapwing, redshank, tree sparrow and yellow wagtail, and for brown hares.
2. Protection and restoration of the landscape of a medieval deer park, including tree and hedge planting
3. The genetic conservation of rare farmland breeds including Jacobs and Portland sheep and Longhorn cattle
4. Protection of archaeological features including a barrow.
5. Making the links between food production, business and conservation.
6. Buffering & protecting water courses

Who are Tori & Ben?

TORI & BEN'S

Award winning farmers Tori and Ben farm their herd of Longhorn cattle and flocks of Jacob, Portland and Texel sheep in Melbourne Derbyshire. Longhorns are renowned for their docile, care-free attitude, making them a pleasure to handle and look after. The sheep flocks are made up of Tori's Jacobs, with whom she has not been shy of a championship or two in the show ring, a Flock of Portlands. The farm is CEVAS accredited and offers a diverse and flexible offering for schools

We are a genuine working farm with exclusive use for one school at a time allowing for a free run of the farm and peace of mind for the teachers keeping the children safe

Through our outside classroom workshops we ensure we support all 7 aspects of the Early years learning for 3-4 year olds.

We are able to offer workshops specifically designed for Key Stages 1-3 subjects as below:

Learning Opportunities

PHYSICAL EDUCATION

- Lead healthy & active lives
